Please list on- and off-campus fellowship-related activities you participated in this semester or summer (conferences, talks, trips, etc.), including any activity for which you used travel and research funds.

Please attach a complete summary of your research (~one page), including, but not limited to, the following:

- Thinking back to the proposal you wrote for this project, how did your actual research experience match your expectations? If it changed, how and why?
- Describe the methodologies you employed.
- Summarize your findings and/or accomplishments.
- How has this experience influenced your plans for future research?
- How did you work with your mentor? What aspects of the relationship were particularly beneficial? What could be done to enhance the relationship?
- Include a bibliography of sources read or used.
